**Approach and Implementation**

No activities are short, engaging, and executed at the beginning of the first 15 minutes. + Can be tailored to grade levels and time constraints + Visually stimulating and/or relevant to "real-world" issues + May serve as thought provoking activities to introduce concept problems

**Results and Conclusions**

These activities have been implemented in fellows’ classrooms. Success has been observed in the following ways:

- Better in-depth understanding of the material
- Overall positive feedback from students and teachers
- Increased student interest & interaction when introducing topics
